20th May 2023

Dear DC Napier

I have been informed by Claire Gusterson 6443 in FCC Admin that you have now presented the case to the CPS for testing.

I was not aware of this as Mohammed [REDACTED] duty solicitor is no longer working on a pro-bona basis for me, and due to myself shortly declaring bankruptcy soon for my company I will be a litigant person going forward and hoping to get legal aid should the case go to court as I cannot afford [REDACTED] costs.

If you could supply the information below I will be grateful:.

- If you can advise the name of the lead / contact prosecutor in my case at the CPS (assuming it is Thames & Chiltern) and their contact details as I will now wish to contact them and test the case until the bail hearing date.
- Could you confirm if we are at the evidential stage, public interest stage or threshold test stage,
- Could you also confirm the bail date and time because there are some discrepancies between what I was told by your custody sergeant and Mohammed Hussein of Reeds.

Mohammed [REDACTED] states in his letter to me the bail date is on the 8th July, the letter I have from the custody sergeant is the bail date is the 11th July. I am assuming I should be going with the letter from the custody sergeant in this instance. I don't want warrants issued for my arrest you see if I fail to turn up in the 8th July.

As my post box was broken into again last week I am hoping we can communicate using my email address. My email address is [REDACTED]

Regards
